

LEA Guidance for Virtual or Remote Instruction Plan Attestation for the 2021-2022 SY

Contact Information

County: PASSAIC

Name of District, Charter School, APSSD or Renaissance School Project: Paterson Charter School for Sci/Tech

Name of Chief School Administrator or Lead Person: A. Riza Gurcanli

Chief School Administrator or Lead Person Contact Number: (973) 247-0600

The New Jersey Department of Education (Department) is providing the following guidance pursuant to *N.J.S.A. 18A:7F-9(c)* to assist districts in the development of their 2021-2022 virtual or remote instruction plans. The Department encourages LEAs to reflect on the previous school year to improve elements of the prior year’s plan to provide the most substantive education, including related services, to their students in the event of a district closure.

For each of the three areas below, the chief school administrator or lead person will either mark “yes,” confirming that the information is in the plan and list the corresponding plan page number, or mark “no” if the information is not contained in the plan. The chief school administrator or lead person is expected to provide an explanation to the county office of education for all areas marked “no.”

By October 29, 2021, the chief school administrator or lead person must submit a board-approved LEA Guidance for Virtual or Remote Instruction Plan for 2021-2022 along with this form to their county office of education. At the time of submission to the county office of education, the plan must be posted on the LEA’s website. Plans will be reviewed in each county office of education on a rolling basis with an electronic response communicated within two business days of receipt.

The plan outlines how virtual or remote instruction will be provided to students who may not have access to sufficient broadband, or to any technology required for virtual or remote instruction.

The program should account for measuring and addressing any ongoing digital divide that exists, whether it be network access or lack of sufficient access to devices.
